

SKY's Questing Plugin

Mob Hunter

Track first kill of each mob type

Show a checklist in a GUI or /quest command

Give bonus XP on first completion for that mob

Optional milestone rewards: 10 mobs, 25 mobs, all passive mobs, all hostile mobs, etc.

Collector

Track first time obtaining each flower/item type

Check off when the player picks up, crafts, or moves the item into inventory

Forester / Arborist

Track tree types by log or sapling types

Count first collection of each wood family: oak, birch, spruce, jungle, acacia, dark oak, mangrove, cherry, pale oak, bamboo, crimson, warped.

Rewards

Use a weighted random reward pool

Upper-tier rewards:

- Netherite ingot
- Enchanted diamond/netherite gear
- Rare consumables
- XP bottles
- Note to self: Keep the rare items on low odds so progression stays exciting

Progress display

/quest

Chest GUI with categories

Lore like:

Zombie - Complete

Creeper - Incomplete

Boss bar or action bar toast on first completion

Design choices will make it better:

Per-entry XP reward for first completion

Milestone random reward crates for every N completions

One final big reward for finishing a full category
